

## Join a UUJEC Task Force

The Unitarian Universalists for a Just Economic Community is, of course, very interested in democracy. We need more of it in our own operations. Participating in a task force that conducts our work is a good way for you to promote justice in the denomination and in the world.

Please, examine this task force list to decide where you can make your best impact on the world. When you find one (or two), click on the adjacent survey monkey link. Each link opens an eight-question survey that asks when and how you can meet with other interested members.
